SCOTT SCHERER, *Member*

NEW GAME EVALUATION FORMAT

The format developed to submit a new game for evaluation to this agency must include the following:

1. Four (4) drawings or photographs of the layout.
2. Rules of play, along with specific examples.
3. Proposed schedule of payout.
4. Statistical evaluation of theoretical percentages of the new game.
5. A letter from a Group I licensee (a non-restricted licensee with gross gaming revenues of \$3,173,000 or more per year) agreeing to display and monitor the new game for a field trial.
6. A notarized statement that the requester agrees to pay all costs for shipment, inspection and incidental costs documented by the Gaming Control Board (GCB) in connection with the examination and evaluation of the new game.
7. A notarized statement that the requester agrees, if a field trial is approved, the casino conducting the field trial will receive 100% of the revenue produced by the game.
8. A notarized statement that at least one working model is available, or will be available immediately, should the game be approved for field trial.
9. A notarized statement of the applicant's and developer's intent as to patents.
10. A notarized statement of the applicant's and developer's intentions as to how a profit is expected to be made from the submitted game, when/if the game is approved for play in Nevada.
11. A Personal History Record completed by all applicants.

12. Applicant's "Request to Release Information," "Release and Indemnity of All Claims" and "Affidavit of Full Disclosure" forms, signed by the applicant(s) and developer(s), and notarized.
13. Three thousand dollars (\$3,000) on deposit with the State Gaming Control Board, or a check in that amount made payable to the Treasurer, State of Nevada.
14. A list of names, with telephone numbers, with whom the Gaming Control Board may discuss aspects of the game.

Submit this package of all 14 items to the Enforcement Division of the Gaming Control Board. After the package has been reviewed for completeness, the statistical evaluation will be forwarded to the Electronic Services Division for analysis and verification.

If administratively approved for field trial by the Gaming Control Board, the applicant and field trial casino will be notified in writing, and the field trial must start within 30 days of receipt of this notification. The field trial will normally last for 90 days.

The casino will be responsible for submitting statistical data to the Gaming Control Board during the field trial. Failure to timely submit complete data may result in terminating the field trial and delaying or stopping the new game approval process. The game must be video taped during the entire field trial.

Upon completion of the field trial, the Enforcement Division will prepare a Request for Final Approval report and submit it to the Gaming Control Board and the Nevada Gaming Commission. The applicant and a representative of the field trial casino will receive written notification requiring their presence at the Gaming Control Board and Nevada Gaming Commission meetings.

Final satisfaction of all expenses incurred by the Gaming Control Board must be made by the applicant before the game is approved in the state of Nevada.
